

WHAT SHOULD I DO IF I AM A VICTIM OF IDENTITY THEFT?

- Close all accounts that have been tampered with, established fraudulently or are associated with lost or stolen information.
- Contact the three credit bureaus (Equifax, Experian and TransUnion) to inform them of the fraud and to place a “Fraud Alert” on your credit report files.
- File a police report in the city where you live or where your place of business is located.
- Contact the Federal Trade Commission or California Office of Privacy Protection to obtain the ID theft affidavit for submission to merchants.

Resources

Alameda County Identity Theft Council

A free resource created to provide direct help for residents of cities across Alameda County who believe they are victims of identity theft.

<http://identitytheftcouncil.org/alameda>

California Office of Privacy Protection

A State government agency dedicated to promoting and protecting the privacy rights of consumers.

<http://privacy.ca.gov>

The site also provides identity theft first aid tips, the first steps to take if you believe you may be a victim of identity theft.

WHAT IS IDENTITY THEFT?

Identity Theft is the use of another person's personal information without consent to do something that is illegal, such as opening a credit account in another's name.

HOW THIEVES OBTAIN YOUR PERSONAL INFORMATION.

- Auto and residential burglary.
- Theft of wallets and purses.
- Theft of mail: credit card and bank statements, checks, pre-approved credit offers and various other documents.
- Dumpster diving: sorting through garbage to collect documents containing personal information such as old bills and tax returns.
- Phishing scams: phony emails requesting that you forward your information to them for an alleged legitimate purpose.
- Accessing your credit report by posing as a landlord, employer or loan officer, and ordering a copy of it.

HOW CAN I PREVENT IDENTITY THEFT?

- Obtain a "Security Freeze" with the three credit bureaus.
- Frequently review your bank statements, credit card statements and credit reports for fraud.
- Install a locking mailbox.
- Cross-shred your financial documents and paperwork before discarding them.
- Protect your Social Security number: never carry it in your wallet; if your health plan card uses your Social Security number, ask the company for a different number; do not give it out unless absolutely necessary.
- Do not give personal information over the Internet, by telephone or by mail unless you know exactly with whom you are dealing.
- Stop pre-approved credit offers by having your name removed from the credit bureau marketing list.
- Protect your personal information on your home computer. Use "strong" passwords with at least eight characters, including a combination of numbers and symbols. Use firewall, virus and spyware protection. Don't click on links in pop-up windows or in spam e-mail.
- Be alert to "fake" ATMs and cash dispensing machines.

SIGNS THAT YOU MAY BE A VICTIM OF IDENTITY THEFT:

- Your bills do not arrive as expected.
- You have been denied credit for no apparent reason.
- You receive unexpected credit cards or account statements.
- You receive calls or letters about purchases that you did not make.
